

606 & 607 ALMASOL® VARI-PURPOSE GEAR LUBRICANTS

FARLEY'S MACHINE, Platteville, Colorado

Various Equipment • SIC 3599 Industrial and Commercial Equipment

"LE gear lubes adhere better, separate water well and give my customers the highest level of lubricant protection. It is the best oil I have seen in my 40 years in business!"

CUSTOMER PROFILE

Farley's Machine, located in Platteville, Colorado, rebuilds oil field equipment. They have been in business for 40 years and an LE customer for 15.

APPLICATION

Farley's rebuilds all types of oil field equipment including, rotary tables, mud pumps, draw-works swivels and winches.

AREA OF INTEREST

Farley's Machine is a highly respected rebuilders of oil field equipment. Owner Dave Farley wanted to use only the best lubricants available in his customers' equipment.

LE SOLUTION

Lubrication Consultant Jeff Dean recommended 606 and 607 ALMASOL® Vari-Purpose Gear Lubricants. LE's 606 & 607 are formulated for heavy-duty service in transmissions, differentials and industrial gearing. They have extreme pressure (EP) characteristics, are long lasting, water resistant and non-foaming in service. They are very adhesive, protect against corrosive wear and can reduce overheating.

CUSTOMER COST SAVINGS

Dave Farley stated, *"LE gear lubes adhere better, separate water well and give my customers the highest level of lubricant*

protection. It is the best oil I have seen in my 40 years in business!"

OTHER PRODUCTS USED

Dave also owns and operates gold mines in Colorado and Northern Canada. They use 3752 ALMAGARD® Vari-Purpose Lubricant, 7500 MONOLEC® Power Fluid and 8430 MONOLEC® Engine Oil in a variety of equipment, and have been able to achieve extended drains and longer service life.

Jeff Dean

We would like to thank Owner, Dave Farley, and LE Lubrication Consultant, Jeff Dean for the information provided to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
