

2059 MONOLEX[®] Penetrating Oil & Lubricant

Main Car Care - York, PA

General Automotive Repair Shop Applications

SIC 7699 Repair Shops & Related Services

"I would never hesitate to recommend use of this product"

- Charles Main, Owner and Operator Main Car Care

CUSTOMER TESTIMONIAL

CUSTOMER PROFILE

Main Car Care is located in York, Pennsylvania. It is owned by Charles Main who is a veteran auto mechanic.

AREA OF INTEREST

Charles Main needed a product he could rely on. He needs all of his machines running smoothly, effectively and needs the ease of removing parts.

LE SOLUTION

Lubrication Consultant Harish Doshi knew that LE's 2059 MONOLEX[®] Penetrating Oil and Lubricant was just the thing Mr. Main needed for his operation. LE's 2059 acts rapidly to penetrate and dissolve most rust, gum and varnish, freeing "frozen" parts. It leaves a tough film of lubricant and acts as a rust and corrosion preventative on metal surfaces. LE's 2059 also contains MONOLEC[®], LE's exclusive wear-reducing additive which has proven its extraordinary performance in thousands of applications.

APPLICATION

Charles Main has used many other brands of penetrants in his eighteen years of automobile experience. He uses a penetrating lubricant for rusted bolts and other general lubrication and penetrating oil requirements throughout his shop.

CUSTOMER COST SAVINGS

Charles Main often had to revert to very expensive means such as a cutting torch to get the job done. Since using LE's 2059 Charles Main says,

“This stuff is very good. It quickly dissolves rust, gum, and varnish and loosen frozen parts. I would never hesitate to recommend use of this product.”
